

PARTS FOR OIL FILTER MOTOR PLATE

1	Oil Filter	(1)
2	Fitting for oil filter to plate	(1)
3	Fittings, 1/4" npt x 3/8" barb	(2)
4	Hose clamps	(4)
5	Oil line	(1)

Install oil filter fitting into motor plate using red Loctite®. Wait until Loctite® sets up completely before installing oil filter.

Install brass barb fittings into back side of motor plate using red Loctite®.

Cut and install oil line as needed and secure with hose clamps.

Note: Bottom line is for the feed into the filter, and center of filter is oil exit.
